

A Welcome Kit to Europe – AWKE

Erasmus successful experiences

Partner: 2nd Gymnasium of Nafpaktos
Category: Training Course
Erasmus TCA (Youth Workers Mobility)
Erasmus KA229 project: "Protect Ecosystem and Life" (2020-I-C201-KA229-078155-4)
People involved: 6 teachers and 20 students

Experience (Highlights):

In the 2019-2020 school year, the 2nd Gymnasium of Nafpaktos collaborated with schools from the Czech Republic, Turkey, Portugal, Estonia, and Romania to implement the Erasmus+ KA229 project titled "Protect Ecosystem and Life" (2020-I-C201-KA229-078155-4), which was approved after evaluation.

Students and teachers communicated, collaborated, and traveled as part of the project. They learned about greenhouse gases, natural resource management, and waste reduction. Using digital tools, students developed plans to reduce pollution and raise awareness about recycling.

The project also included creative workshops, environmental education, and presentations on local ecosystems. Participants explored the natural and cultural wealth of the partner regions, inspiring hope for a sustainable future
